VISION:

By creating a foundation of literacy in all content areas, Parkville Middle School will develop independent, productive, globally competitive citizens

March 27, 2020

Good evening, Parkville Middle students and families!

I hope that you are all well during these times. Our school family misses our students and we have enjoyed engaging them in “virtual” ways through Schoology and Microsoft.

As our students and families are aware, our school will be closed for a longer period of time. As a result, beginning April 6, 2020, there will be new learning available for students. Moving forward, there will be new opportunities for students to continue their learning. The materials that are currently available on the BCPS website were designed to provide practice, reinforcement, and enrichment through April 3, 2020. Students are encouraged to continue using those materials through April 3, 2020.

For all of our students in Grades 6 – 8, continuity of learning will take place through Schoology using their BCPS issued device. More information regarding the specifics of that learning by course will be forthcoming in the next week.

As we continue to prepare for learning that will begin April 6, 2020, our administrative team will be remotely available to you. We are reading and responding to emails daily. We will get through these times together! Thank you for your continued engagement.

Sincerely,

Erin O’Toole-Trivas
Principal
